MEOS 2011

17th Middle East Oil & Gas Show and Conference

Conference 25 – 28 September
Exhibition 26 – 28 September

Bahrain International Exhibition and
Convention Centre

Show Report

The largest edition of MEOS in the 32 year history of the series concluded on 28 September having registered a record total of 7,199 conference delegates and visitors.

Marking a 14% increase in attendance on the 2009 event, the exhibition meanwhile grew by a healthy 6% in size.

92% of exhibitors surveyed on the last day ranked their experience at MEOS 2011 as either 'good' or 'excellent'. This satisfaction is reflected in the number of bookings already received for MEOS 2013, which will take place from 11 – 13 March 2013 in Bahrain.

Exhibitor impressions

*"The exhibit was first class!"
ExxonMobil*

*"A lively show in the heart of the Gulf. We would definitely come again."
2M Kablo*

*"One of our most successful exhibitions for generating interest in the region."
ALS Ammtec*

*"An outstanding opportunity to meet senior officials and learn about regional trends and needs."
Simtronics Plant Leadership*

The exhibition

The exhibition of oil and gas products and services spanned 14,800 square metres of space at the Bahrain International Exhibition and Convention Centre and showcased 300 exhibiting companies from 30 countries.

In a display of strong support for the exhibition, flagship stands were taken by all 6 GCC national oil companies (ADNOC, Bapco, KPC, PDO, QP and Saudi Aramco) who exhibited alongside supermajors including Chevron, ExxonMobil and Shell and service industry giants Baker Hughes, BGP, CGGVeritas, Halliburton, Occidental Petroleum Corporation, Schlumberger, Tatweer Petroleum and Weatherford.

National groups from North America and the UK in addition to numerous smaller independent specialist suppliers and distributors from across the globe completed this line up.

His Royal Highness Prince Khalifa bin Salman Al Khalifa, Prime Minister of the Kingdom of Bahrain, performed the official exhibition opening ceremony accompanied by an entourage of ruling family members, ministers, diplomats, and senior international industry leaders, during which he praised the importance of MEOS in helping to disseminate experience, innovation and technology from the world over.

MEPEX 2011 & the Getenergy Village

Two new co-exhibitions ran alongside MEOS 2011 providing added value – MEPEX 2011 and the Getenergy Village.

The Getenergy Village provided a focal point for universities, colleges and training providers to exhibit and interact with E&P companies.

A series of 'Star Turn' presentations were also delivered by leading figures from the international education and energy industries during the course of the exhibition, including speakers from the Iraqi oil and gas industry who discussed education initiatives between the Ministry of Oil and the international oil industry.

"Despite all the new upcoming events, MEOS remains a key exhibition that one cannot skip. Keep it up!"
KAPPA

"The organisation and support of Arabian Exhibition Management was first class."
EAST

"A great event to interact with customers and to enlarge your network."
Lord Corp.

"It was a successful event in all criterion"
Kuwait Petroleum Corp.

"A fantastic opportunity to meet with companies and international organisations under one roof. Networking opportunities aplenty, well recommended!"
University of Dundee

"MEOS 2011 is one of the most comprehensive conferences and exhibitions with some of the biggest worldwide players in attendance."
ARNCO

"An excellent oil and gas exhibition where one can meet delegates from major players of the industry for networking and business opportunities."
Kuwait Energy

The 2nd edition of the Middle East Prospect Exhibition (MEPEX 2011) was held under the patronage of Bahrain's Energy Minister His Excellency Dr. Abdul Hussain bin Ali Mirza, and developed by a committee steered by Bapco.

This prime E&P business event showcased opportunities in unexplored oil and gas reserves and prospects for development in the Middle East and beyond, providing a marketplace for the buying, selling and trading of oil and gas prospects and producing properties.

The SPE conference

The high level technical conference which ran parallel to the exhibition was supported and developed by the Society of Petroleum Engineers (SPE) in cooperation with a committee of national and international oil company representatives.

A major focal point of the MEOS series, it attracted 1,844 registered delegates.

Under the chairmanship of Mohammad A. Husain, Deputy Managing Director - MAA Miha Al-Ahmadi Refinery, Kuwait National Petroleum Company, the technical programme consisted of 178 presentations designed to share the knowledge and experience of managing, operating and supplying companies.

Topics ranged from exploration; drilling and completions; reservoir engineering; production and operations; management and information; and health, safety and environment in addition to special sessions.

The packed conference schedule at MEOS 2011 also offered 5 panel sessions led by presidents, vice presidents, CEOs, deputy managing directors, and chairmen of key players in the industry such as ADCO, Baker Hughes, Exxon Al Khalij, GE Oil & Gas, KBR, Kuwait Oil Company, NPS Energy, Petroleum Development Oman, Shell, Weatherford International, and WorleyParsons.

Sessions covered the future relation between IOCs, NOCs, and the service industry, how to avoid past mistakes, the value chain integration in mega projects, capacity and skills development, and how fast is technology being developed.

"In our opinion the show will continue to be an important international event in the oil and gas industry of the Middle East."
FHF Funke + Huster Fernsig GmbH

"A great way to get connected with industry people. MEOS = expanding your business. Keep it up!"
Beicip Franlab

"The best show for anyone who wants to do business with upstream Saudi Aramco."
Palisade

Attendee impressions

"A very useful and interesting exhibition. Well worth the travel to visit."
International Specialty Products – ISP Corp.

"The organisation was fantastic. The quality and layout of the exhibition was good. It was a well attended event by delegates from all over the world."
Petroleum Development Oman

"One of the best exhibitions. Gathers everyone from the sector. Second best to the SPE Annual."
Saudi Aramco

The conference opened on 25 September with a keynote session on this year's theme 'Shaping the Future of the Industry: Innovating Beyond Limits'.

Following welcome addresses by Bahrain's Minister of Energy His Excellency Dr. Abdul-Hussain bin Ali Mirza and the 2012 Society of Petroleum Engineers (SPE) President Ganesh Thakur, the speakers included:

- Mohammad A. Husain (moderator)
MEOS 2011 Chairman & Deputy Chairman and Deputy Managing Director - MAA Miha Al-Ahmadi Refinery, Kuwait National Petroleum Company
- Amin H. Nasser
Senior Vice President, Upstream, Saudi Aramco
- Abdul Munim S. Al-Kindy
CEO, Abu Dhabi Company for Onshore Oil Operations
- Andrew Gould
Chairman and CEO, Schlumberger
- Chad Deaton
Chairman, President and CEO, Baker Hughes
- Lee Tillman
Vice President, Engineering, ExxonMobil Development Company
- Sami F. Al-Rushaid
Chairman and Managing Director, Kuwait Oil Company

SPE Workshops, Training Courses & Young Members Programme

Other highlights during the course of the conference included a one day workshop on 25 September entitled 'Unlocking Talent Potential in the Region: Building Your Future by Collaboration and Knowledge Transfer'. Organised by the SPE with the support of key regional and international E&P players, it focused on current workforce issues in the oil and gas industry.

"It's a fantastic event to meet key professionals and enhance business development."
Bapco

"It served as a platform to make contacts with distributors and we also got to meet various new suppliers who are emerging in the market. It's a well organised and comprehensive event and makes one aware of the new machinery and technologies in the field of oil and petroleum."
Tanami Investment

"An excellent and very informative event."
PPS

"It is a booming event and increases the national income and economic development of Bahrain. The exhibit was efficient and highly informative."
Saudi Aramco

"The best oil industry conference I have attended in 2011."
Saudi Aramco

"A very good experience to meet multi-national companies. It enhances our business growth"
Al Rashed Fasteners

Two training courses were also staged on 25 September, providing delegates with further opportunities to learn and integrate entitled 'Transient Well Testing' and 'Waterflooding Concepts, Design Prediction and Optimisation'.

A four day Young Members Programme, sponsoring 100 of the best undergraduate geosciences and engineering students from Middle East institutions to attend MEOS 2011, was also held by the SPE.
